

SHPS Health Office
Student Assistant Program
Grades 3-5

Program Overview:

The Health Office Mentorship program is an opportunity for students to learn about Health Office procedures and to also learn to care for their fellow schoolmates, under direct supervision of the Health Office Technician. Students will learn the basics of sterile environment, patient confidentiality practices and first aid care. The program is available to students who maintain a high achievement in citizenship and academics in their current grade, and also have parental permission to participate. The program duration is one month, (during morning recess time) at the end of which students will be required to take a final exam.
